B.TECH - DATA SCIENCE | ASPIRING DATA ANALYST

6304488113 • gaddamsravankumar21@gmail.com • github.com/SRAVAN661 • linkedin.com/in/gaddam-sravan-kumar21

PROFESSIONAL SUMMARY

B.Tech Data Science student with a 7.7 CGPA and intermediate-level Python skills, seeking an entry-level Data Analyst opportunity. Interested in transforming data and real-world problems into practical solutions through programming, analytical thinking, and structured problem solving. Built a camera-based grocery billing project that captures products and calculates the total bill value.

EDUCATION

B.Tech - Data Science

Mallareddy College of Engineering & Technology (MRCET) | 2024-2028

7.7 / 10 CGPA

Intermediate - SR Junior College, Nalgonda

747 Marks

SSC - ZPH School, Thipparthi

8.7 / 10 CGPA

TECHNICAL SKILLS

- Programming: Python (Intermediate), Java
- Web Technology: HTML
- Data & Analytics Foundation: Data Science fundamentals, problem solving
- Professional Strengths: Quick learning, self-motivation, hardworking

PROJECT EXPERIENCE

Camera-Based Grocery Billing System

- Designed a grocery billing solution that uses a camera to capture products.
- Processes the captured products and determines the corresponding product values.
- Calculates the total value of selected products to support faster billing.
- Applied programming and automation concepts to a practical retail use case.

CERTIFICATIONS

- Cambridge Certification
- Python Certification
- Computer Certification

CAREER FOCUS

Target Role: Data Analyst | Interests: Data Analysis, Python, Data Science, Business Problem Solving

PROFESSIONAL PROFILE

- Developing practical technical projects alongside academic learning.
- Interested in applying analytical and programming skills to real-world business problems.
- Open to entry-level opportunities, internships, and learning-focused Data Analyst roles.

ACHIEVEMENTS & EXPERIENCE

No additional achievements, internships, or professional experience provided.
